

COCOA LIFE PROGRESS AND IMPACT IN NUMBERS

We source

68% of our chocolate through **COCOA LIFE**

Target: **100%** BY 2025

We work with

188,043 FARMERS

Target: **200,000** BY 2022

And with **2,169** COMMUNITIES

IMPACT HIGHLIGHTS:

SUSTAINABLE COCOA FARMING BUSINESSES

Working hand-in-hand with cocoa farmers to make cocoa farming a sustainable business. We help farmers become more productive, so they can increase their income from cocoa.

18,129,650 Cocoa seedlings distributed

1,013 Cocoa-farming demonstration plots

267 Nurseries

23,112 Youth trained on cocoa-related enterprises

181,257 Farmers trained, coached or having a farm development plan on Good Agricultural Practices

Cocoa Life registered farmers in Ghana increased their incomes by **+22%** vs. non-Cocoa Life farmers

Cocoa Life registered farmers in Côte d'Ivoire increased their incomes by **+8%** vs. non-Cocoa Life farmers

EMPOWERED COCOA COMMUNITIES

Empowering the men, women and youth within cocoa communities to lead their own development and improve their livelihoods through entrepreneurship.

1,959 Communities with a CODEC and Community Action Plan (CAP) activated

3,853 CAP projects completed in communities

649 Communities with a Child Labor Monitoring and Remediation System or equivalent

324,953 Community members and farmers educated on issues of child labor and forced child labor

101,926 Community members trained on financial literacy

65% of CAPs in West Africa are backed by local governments

29,653

Community members involved in additional income generating activities

3,205

Village Savings and Loan Associations (VSLAs) operational

499

VSLAs linked to finance institutions

82,371

Community members who participate in VSLAs, of which more than 75% are women

812

Communities with Child Protection Committees

49,697

Community members trained on gender awareness

72,134

Community members trained on business management

Education infrastructure is the number one priority for CAPs in Cocoa Life supported communities

CONSERVED AND RESTORED FORESTS

Protecting and restoring the land and forests where cocoa is grown, together with the farmers and communities.

246,262

Community members and farmers trained on Good Environmental Practices

2,216,763 Economic shade trees distributed

167,795 Farms mapped and monitored

71% of Cocoa Life farms are now mapped to monitor deforestation, up **+12%** from 2019

82% of West African farmers involved in Good Environmental Practice training have changed practices to reduce climate impact
